DST Health Solutions Brings On New Director For Care Management Division

Former Medicaid Health Plan Director, Diana Rappa-Kesser, to lead strategic development, growth of new integrated care management solutions suite

BIRMINGHAM, Ala., November 29, 2011— [DST Health Solutions](#) today announced the hire of industry veteran Diana Rappa-Kesser, RN, MSN, CCM, CCP, as Business Solutions Executive for its new Care Management Division. Rappa-Kesser is tasked with setting the overall solutions strategy and direction for the recently launched [Integrated Care Management suite](#) that empowers health plans with flexible and comprehensive solutions to help reduce medical and administrative costs while improving clinical outcomes. She will play a pivotal role in the newly formed Care Management division by providing direction to the team for the [CareConnect™](#) and [CareAnalyzer®](#) products.

“As DST makes strides in providing sophisticated, event-driven care management solutions, I am honored to be a part of the team that will help grow our business within targeted healthcare segments,” said Rappa-Kesser.

Diana brings more than 25 years of clinical and managerial experience in both the hospital and health plan sectors to her new role at DST Health Solutions. For the past 10 years, Rappa-Kesser was instrumental in building the Care Management division within a large Medicaid plan in the Northeast, which was recognized with national accreditation for its industry-leading strategic case and disease management. Rappa-Kesser’s leadership within the Care Management division resulted in the organization’s ability to move beyond episodic case management to complex case and population management, and to develop disease-specific care plans based on recognized clinical best practices that could be tailored for individual members.

“We are excited to bring such a highly experienced and accomplished leader in clinical and strategic areas of healthcare to our newly formed Care Management division,” said Mark McAdoo, Vice President, DST Health Solutions. “Diana’s contributions will be integral as we continue to roll out and advance new solutions that aim to remove barriers experienced by health plans by effectively managing

their populations, utilizing benefits and providing education for optimal self-management.”
