

HiPortfolio wins “Best Post Trade Processing Product or Service” in the Banking Technology Awards 2011

London, 14th November 2011 – DST Global Solutions is proud to announce its market leading asset servicing solution, HiPortfolio®, has been awarded the “Best Post Trade Processing Product or Service” in the Banking Technology Readers’ Choice Awards 2011.

For more than a decade, The Banking Technology Awards have recognised innovation and excellence within the financial services IT industry with the magazine readers voting for their choice of what they consider to be the best systems in the market today.

David Bannister, Editor of Banking Technology commented on the awards, “It has been a testing time for the industry but the people who keep the industry working are unsung heroes and we are delighted to pay tribute to all of our entrants and winners who work so hard and contribute so much.”

Arun Sarwal, CEO, for DST Global Solutions Investment Management Solutions division commented: “We are delighted to have won ‘Best Post Trade Processing Product or Service’ in the Readers’ Choice Awards. This award is particularly special as it is a vote of confidence from the industry in our HiPortfolio solution. It serves as reinforcement to our commitment to ensure that it remains one of the leading asset servicing solutions in the marketplace today and tomorrow. Winning this prestigious award has only been possible thanks to the continued strong support and belief of our clients, backed by the hard work and commitment of our HiPortfolio teams around the globe.”

HiPortfolio is at the heart of over 160 investment and wealth management firms globally. It reliably provides the critical asset servicing functions needed for them to remain competitive, and efficient. Our clients range from the largest global third party administrators and asset managers, to sovereign wealth funds and to boutique firms.
